

POINTMAN TP-9200 Card printer

This easy-to-use desktop card printer is ideal for use in small and medium sized workgroups featuring high quality printing, offering premium performance with versatility.

Use for

- **ID and access control cards**
- **Instant issuance of debit cards**
- **Personalized gift, membership and loyalty cards**

Engineered for your plastic card printing

Ideal for your flexible plastic card printing! TP-9200 is a fast and high performance card printer that offers various options like dual side printing, magnetic stripe, contact and contactless smart card encoding. TP-9200 saves time with fast printing speed plus a convenient, a 100 card feeder, output hopper and a hand-feed slot conveniently placed at the front of the printer.

USB interface, optional Ethernet and plug & play driver certified by Microsoft ensure that TP-9200 printer can be easily installed and used. Card Designer™ card printing application being provided together with a print driver enables you to create your own ID cards and to connect your printing database easily without having to install any additional software.
